OUTSET
Pellet Therapy

The **Outset Pellet Therapy Program** is based on over 40 years' experience of working with thousands of medical practices across the United States.

Our treatment protocols and systems have an extensive history dating back decades and are fine tuned to create the optimal form of hormone-based precision medicine.
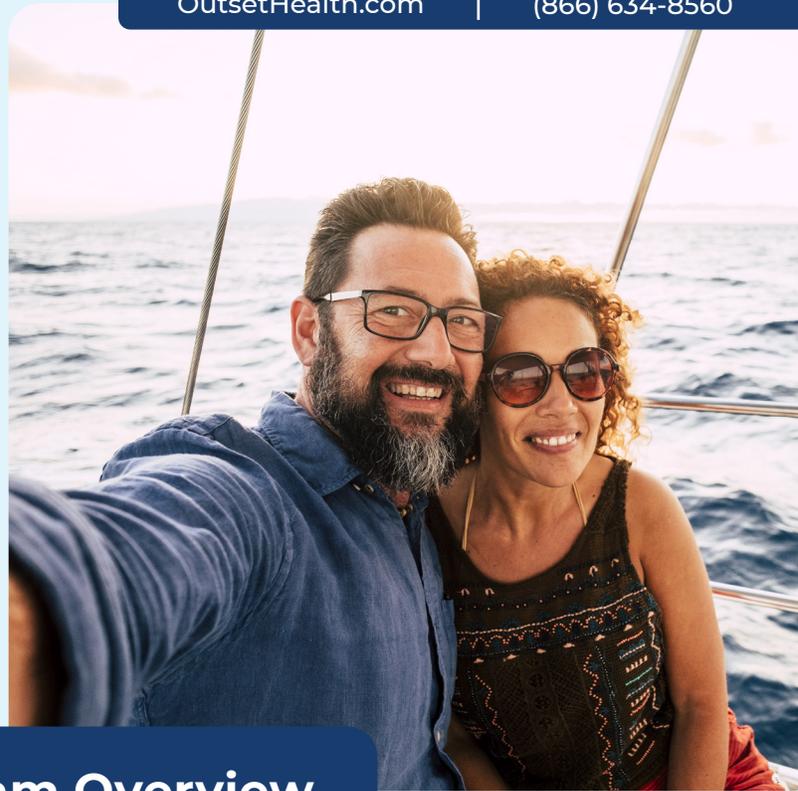

Outset Pellet Therapy Program Overview

Provider Training & Mentoring

Outset Health has created an elite training course that encompasses both the clinical and didactic education you need to implement Pellet Therapy into your practice. After training, you will have ongoing access to proven provider mentors. We provide you with the tools and support system you and your staff need to ensure practice performance while providing optimal patient care.

Practice Setup and Staff Training

Before and after training, our experienced team arrives at your practice for program setup. Our goals and methods are designed to ensure minimal impact on your current practice and team.

Utilizing decades of experience working with all specialties of medical practices, we can confidently say that we have truly "been there, done that!" Most important, we've learned exactly what NOT to do! We utilize the proven best practices followed by the most successful clinics to ensure your practice success. Personalized physical and digital marketing materials are implemented, and your staff is trained in program features. We then perform a thorough workflow review and refinement, regulatory assessment, and end with full training on our best-in-industry technology.

All Outset's healthy aging programs utilize our web-based practice management system to ensure ease of use, shared data repository, process automation, full biomarker capture and concierge service to your patients. Your Provider Portal is built in Salesforce, allowing best-in-class lead management and concierge patient handling

Hormone Pellet Partners

Working in partnership with the top FDA Certified 503B manufacturers, Outset Health has created a standardized product, with minimal USP variance in hormone potency, ensuring your patients receive an equivalent pellet every implant. All of our partners' hormone pellets have undergone extensive FDA stability studies and each batch is tested by third-party independent labs, ensuring that the drug potency is consistent and sterile giving you 100% confidence in the implanted treatments.

Pellet Therapy

Exclusive Dosing System

As a certified Outset Pellet Therapy Provider, you will have free access to our proprietary dosing system in your Provider Portal that was built on more than 40 years' experience in pellet implants and more than one million procedures to date. Based on your patients' unique biomarkers, our Dosing System will offer personalized hormone and supplement treatment options. Our goal is to take the guesswork out of the equation and provide you with peace of mind of optimal treatment for your patient.
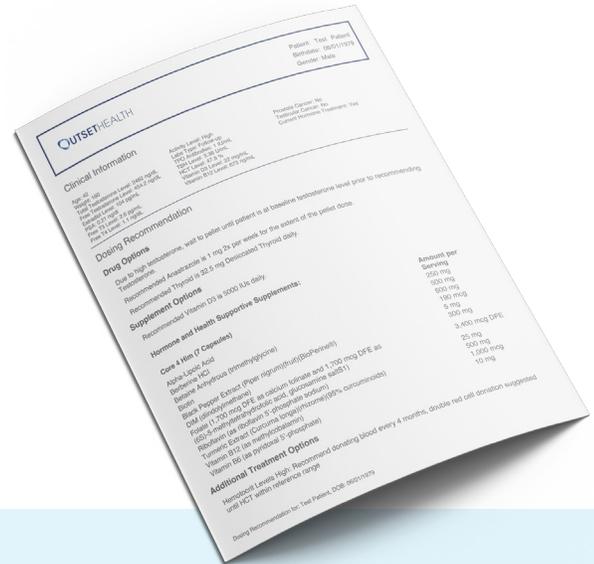

Best-in-Class Supplementation

No more having to store inventory and sell supplement bottles in your waiting room! Our core supplements are health and hormone supportive, delivered in industry unique daily(am/pm) packets, and are directly shipped to your patients by Outset Health with a 90-day supply. All these features combine to ensure best-in-class patient compliance and outcomes.

Optimal Outcomes with Supplementation

Outset Health recommends additional supplements for your Pellet Therapy program based upon the patient's individualized biomarker needs. Our core supplements include:

DIM (Diindolylmethane)

- Supports healthy estrogen metabolism

Turmeric & Black Pepper Extract

- Supports a healthy immune response

Riboflavin, Vitamin B6, Folate, Vitamin B12, Betaine

- Supports a healthy homocysteine pathway

Berberine HCI, Alpha Lipoic Acid, Biotin

- Supports insulin activity & glucose metabolism

Outset Core 4

Personalized Health,
Centered Around You
